# OBM SYSTEMS & WEIGHBRIDGES

Since 1975

100%  Made & Owned

 Type-Approved™  
Smart OBM System (Category B)

 Certified 

The Australian made CHEK-WAY® Eliminator electronic scales and WAY-Bridges.

#### Improve productivity and profitability by:

- Invoicing correctly — no lost loads
- Reduce paperwork and human error
- Ensure accurate and safe loads
- Optional print outs for POD's
- Save time at any weigh bridges
- Certified to ISO 9001
- Complies with current IAP, HML, PBS, TMA, and RIM Requirements
- AUTO-ID® and AUTO-CAL® Software for Interoperability between vehicles
- Reduce COR & OH&S exposure
- Tamper evidentiary data
- Road and Suspension damage monitoring

#### All CHEK-WAY® Eliminator systems plug and play with these other devices:

- Barcode readers and R.F.I.D. tag readers
- G.P.S and G.P.R.S. systems
- RF communications – long and short range
- TRAK-N-WAY® to our INS-COM® servers
- Phone-WAY® Bluetooth

100%  Made & Owned

## The CHEK-WAY® Eliminator is designed for:

- Trucks & Trailers of any type, make or model
- WAY-Bridges®. Static or Dynamic single or multi platforms (up to 6 pairs of decks)
- Waste management, agriculture, livestock, fuel and dangerous goods, truck mounted cranes, side or rear loaders and tankers
- O.S.O.M. low-loaders in any multi-axle combination

Phone-WAY® mobile application for CHEK-WAY® and KWIK-CHEK® monitors loads up to 65m away and captures the data in real-time.
